## 4. Verification Details

**Verification Status:**

Verified

**Verified By:**

Independent Platform-Approved Verifier

**Verification Reference ID:**

VER-0092f857-a2df-41ff-a5cf-7f95cd942328

**Verification Date:**

09 November 2025

## 5. Traceability & Ledger Record

**Ledger Transaction ID:**

LEDGER-TX-2400001

**Ledger System:**

BlueCarbon Ledger (Immutable Digital Record)

**Audit Trail Summary:**

Project submission → Verification → Credit issuance → Purchase → Retirement

## 6. Declaration

This certificate confirms that the carbon credits described above have been voluntarily retired on behalf of the certificate holder.

The retired credits represent verified carbon sequestration from a nature-based project and shall not be resold, transferred, or claimed more than once.

This certificate is issued solely for voluntary sustainability, ESG disclosure, and environmental impact reporting purposes.

## 7. Important Disclaimer

This certificate does not constitute compliance-market carbon credits and does not represent regulatory compliance under any national or international emissions trading scheme.

Claims of carbon neutrality or emissions reduction must be made in accordance with applicable ESG reporting frameworks and disclosure standards.

BlueCarbon Ledger operates as a technology platform and is not a government-recognized carbon registry at the time of issuance.
